6	12	24	48
\$44	\$38	\$32	\$28

(4c)

BAG

22" W x 14" H

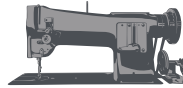

People call it "swag". Stuff We All Get. Sometimes we even find it useful. For a few days.

But these products don't always take into account one important issue: Your favorite clients may love you, but that doesn't mean they want to be a **walking billboard** for your logo.

And the less they *use* your 'swag', the less effective your branding becomes.

We make things people will want to carry for *years*, not days. Well-made objects that look great on the outside and have a **custom-printed lining on the inside** featuring your logo or brand name transformed into a tasteful pattern.

Every time your user opens a sleeve or a bag with your logo on the inside, they'll be reminded that you'd rather *whisper* to them than shout to the masses. That's a *good impression*.

DESIGN + CRAFT + THOUGHTFUL BRANDING

City Cut & Sew is a collaboration between
promotional products supplier Numo and designer Angie Davis

The project combines the skilled capability of a company with over 30 years experience in cut-and-sew manufacturing with Davis' minimal approach to product design, focused on quality materials and well-crafted construction.

BRANDING ON THE INSIDE

Our design team will take your logo and turn it into a pattern that will then be printed on the lining inside your items. We evaluate your branding and put together a pattern and color scheme that is in line with your brand and creates a great looking product, inside and out.
