

# mailers!

Mailers have proven to be an effective way to reach and impact your audience, whether your audience is your staff, your customers, or prospects. Who can refuse a little love showing up in their mailbox, especially in times like these?

These are some of our favorite ideas!  
Remember, with the amount of mailer-sized products and all our Numofied customization, the options are limitless!

Our Confetti Penny Key Ring isn't just cute, it's ideal for pre-stuffing with a gift card, coupon code, or note!

Fold around unused cords for easy storage or use a Tech Taco to keep all the cords behind your desk from getting tangled.

When everyone is ready to return to normally scheduled programming, back to offices and workplaces, how about a "welcome back" campaign?

Mailers can include anything; one of our combos is one of our new Mini Notebooks combined with our new favorite pen, the Le Pen!
